FLY AMERICAN FLAGS

Patriotic Spirit Sweeps Over Community-Pupils Salute Emblem.

THE HERALD BUREAU, R. E. Knight & Son dria, Va., March 23.-Flags today

floated from many business houses and a number of private dwellings, the occupants desiring to show their patriotism in these tense times.

Seminole Tribe of Red Men had adopted resolutions that the flag be displayed, and many of its members are wearing miniature flags.

and many of its members are wearing miniature flags.

At St. Mary's Academy there is no suncertain note in the patric ism during these days of national suspence. The fourth year American history class is it devoting class periods to current events as gleaned from "sane and safe" sources of current history. At dismissal each pupil salutes the flag as she passes out of the assembly hall to the strains of the exit march.

It is expected that Rev. E. V. Regester, paster of Del Ray M. E. Church, South, formerly presiding elder of the Washington district of the M. E. Church, will be appointed on the regular list by the annual conference, which will be held in Roanoke beginning next Wednesday.

Local delegates to the conference will leave here Tuesday morning. They are Rev. J. W. Duffey, D. D., pastor of the M. E. Church, South; James E. Alexander, Henry K. Field and Wilbert C. Raggett

Babies and mothers had their innings Bables and mothers had their innings in the Police Court today. Three chitdren ranging from 4 to 11 years of age, all accompanied by their mothers, were cited to appear because of damage done to an unoccupied house on the north side of Prince street between Fayette and Payne streets. Justice Caton dismissed the case and told the parents they might amicably adjust any damage outside of Police Court with the owner. Police Court with the owner,

Miss Margaret Wilson last night gave a box party at Loew's Columbia picture in to lecture, and while speaking in a tent, a storm arose, drenching everyone, in "The Dummy." There were eight in the party and they occupied two boxes. A special musical program was given,

LESS CLOTHES, WOMEN. AND PRESERVE HEALTH :

The Nearer Naked You Are the Fewer Colds You Will Have, Say Doctors.

Colds You Will Have, Say Doctors.

Did it ever occur to you that man was naturally a naked animal?

And—realizing this fundamental truth—don't you see now why some of our thinly-clad women who prowl up and down F street on the most bitterly cold days are acting more naturally than the males of the species and enjoy that much more immunity from pneumonia?

There's the Queen of the Fiji Islands, by the way—you remember how she wore only a string of beads and how healthy she was! Mark Twain vouched for her.

Well, there's a movement up in Boston now to encourage the race to revert back to the style of 'Adam and Eve. They have discovered that the naked races are blissfully ignorant of pneumonia, tuberculosis, coughs, and colds. They have discovered, too, that there is far more pneumonia among civilized men than women, and the women who do get pneumonia are mostly the old-fashioned sort who keep well bundled up.

Washington doctors said vestered that the

pneumonia are mostly the old-fashioned sort who keep well bundled up.

Washington doctors said yesterday that it would be a mighty good thing for folk to wear less clothes, if they cared for their health at all. They didn't think, though, that all the conventions that are grown up since Adam's time should be discarded. "The old-fashioned man who wore heavy

woolen underwear and heavy muffle's and mittens was sick far more than the modern man," said Dr. Elnora C. Folkmar yesterday. "The man who wears light underwear in winter and rather." light underwear in winter and rather light clothes is likely to be far more healthy than the old-fashioned sort. Wearing heavy clothing is just like hibernating.

Dr. Folkmar said the the same rule applied to women—that the modern woman with her open-neck gowns in winter was far more healthy than the old-fashion

MAY DEMAND RESCUE OF 1,000 U.S. CITIZENS

A peremptory demand that some 1,-000 American citizens, now in serious straits at Beirut and Jerusalem, be rescued may shortly be made by the State Department. For weeks nego-tiations to permit their rescue by American naval vessels have been in progress, but without result. Turk-ish officials have made promises, but each time, when the rescue work was about to start, some obstacle has been raised.

The latest Turkish excuse was that Germany and Austro-Hungary had re-fused safe passage to the American fused safe passage to the American warships. As a result, State Department officials yesterday said that they were very gravely concerned over getting these Americans safely to neutral territory if the present methods are to be adhered to.

Officials said that an effort is to be made now to find some way of getting out of Turkey all Americans who want to leave. How this will be ac-

want to leave. How this will be ac-complished is one of the problems that the Western European Bureau of the State Department is endeavoring to work out.

Interesting Chats From Hotel Lobbies

Frank P. Steel, an attorney, from Pensacola, Fla., was a guest at the Ebbitt yesterday and talked about conditions in his town

his town.

"Pensacola is one of the busiest places along the Guif Coast now," said Mr. Steel, "and partly on account of the navy flying station. When the navy yard at Pensacola was closed down it was quite a blow to the town because the navy yard brought hundreds of navy men and visitors there. The activities of the flyvisitors there. The activities of the fivby the navy aviators, and the station spring shades of leather and dress

ountry."
Mr. Steel explained how the flyers are safeguarded while they are learning.
"The aviation camp is in the old navy yard, and most of the hangars face the water, so that the hydroplanes can glide right onto the waters of the bay. A gars and sailors are stationed on top of this platform with strong glasses whenever anyone is flying. These sailors follow the flyer every second with their glasses. Near the lower is a powerful protection of the state of the second with their glasses. high tower has been built near the hanmotorboat, that will go about 40 miles an hour, and sallors are kept in this boat.
If anything goes wrong with the flyer the sallors with the glasses ring a beli.
HONOR CADETS LISTED point out the direction and the motor boat goes right out to the scene.

precaution.

Mr. Steel said that the navy had one small Zeppelin at the station, but that it was a toy compared with the nuse German balloons.

or vegetable. Corn is used more genment such that the stills are hidden away in the hills. On these lists of military school graduates there are thousands of names, and the war Department takes it for monshiners, but I have never seen or heard of any in our part of the country. The revenue men are usually tipped off to a still by some enemy of the monoshiner and drive out to his home in a Ford and first so and home in a Ford and just go and smash the still. The moonshiner gen-erally runs away because the revenue men have the reputation of cleaning

out any still they go after.

"The moonshiners bring their whiskey to town and peddle it around to a few safe friends. It can be bought at almost any town in North Georgia. The hotel porters get it for traveling men without any trouble, As a matter of fact most moonshine whiskey is very poor stuff and all this talk about fine "Georgia dew" is just hot air."
